

- i think it is a good system of checking in and out and it is very organized from my point of view but other people might think otherwise and i really like how you can check out 4 books at a time and not having to hurry up and finish the book ur on to get a different book
- My school library this year is awesome. It is by far, way better than my school library last year because last year my library was very limited. This year it is way better and it has a wider selection. Thats why I love it.
- It has good books, computers, and an awesome librarian.
- Our school library is big and it has a lot of books, but I think there should be more cozy spots to sit and read in.
- Our school library is big, and has alot of books. There is also magazines and play aways.
- I like it alot because its oganized and it has most of the books I like. It could use more double copys.
- there are alot alot alot alot alot alot of good books for everyone and the library teacher is really nice there are also cumputers that are up to date
- it is big and has a lot of books that are all diiferebt reading levels.
- I think it's awsome! There are a lot of different books there, expesouly the ones I want to read. by the way i'm reading lightning thief series the last olympian. Ms Trigestad is our librarian and I think she does a great job , too! there at the library there's dussie, lightning thief series, and so many more i can't name them all! I love going to our school library and what is really funny is that

every one trys to get the comfy chairs you should them scrambling as soon as they get in!

- It has a lot of books. And i like books!!!!!!:)
- It's pretty big. It has a lot of books, but also magazines and anime. I would like for it to be more organized. I mean, our librarian rocks, and she does an excellent job. But what I really want is to be able to (at least for the magazines) see what issues are out, and when, like have a picture of the cover.
- It's very advanced and has a plentiful variety of fiction and nonfiction books. We don't have very much computers to find books though.
- okay, our school library is actually pretty cool. they have some good books and comfy chairs everywhere. also there are computers there for almost just anyone to use. ;]
- It is big. Also it has a great amount of books and great books. Our librarian is also nice. It is very quiet there so I can read.
- I think that it is really cool. So much bigger than in elementary. There are so many more books, and computers, and the back room for us to work in privatley with the comfy chairs. I LOVE it.
- My school library is a great reading/thinking area it has tons of books to do research and you get to sit in really comfortable chairs and u can sit in them and start to zone out on your book it GREAT!!!!!!
- My school library has a lot of interesting things. SUCH AS PICTURES! SUCH AS BOOKS! SUCH AS MRS. TRYGGESTAD! YYYYYYAAAAAYYYYYYYYYY! WOOO!
- I like that some people can sit on the comfortable chais. There are a lot of books but some times all of

1 book goes checked out like the Percy Jackson series. But overall the library is really good.

- Since our school was an elementary school two years ago, we have few books. Even for an elementary school there are barely any books.
- My school's library is a fair size for an intermediate school. I am usually able to find the book or books I am looking for.
- It has moved around the building and had many different librarians. It has a lot of anime books and not enough dog books.
- My school library is fairly small. There are WAY too many anime books.
- My school library has lots of books. There are books of all kinds. There are also computers in the library.
- My school library is a sort of big library with a lot of books. I like when we come to the library as a class because we get a lot of time to look around and when we are done looking there are nice chairs in the back of the library that we can sit in. I think they should teach us how to find books with those letters (the letter code for each book, I am not sure what they are called) because I always have a hard time with that.
- My school library is nice for many reasons. One there's many books to choose from and they are sorted very well. Also there is a computer to search up books to see where they are on the shelves and who they are written by. I don't like the fact that there is a printer in there and you hear it running a lot. There isn't a lot of noisiness so it's very easy to read in there.

- our school library at west milwaukee has a very wide selection of books. Now haven't seen many library but this is one ,if not the best library i have seen. Another thing i like about our school library is that although i am not much of a reader i can always find an interesting and enjoyable book
- My school library has many books. They range from magazines to fiction to nonfiction. Most of the books I have heard of(i don't hear of many because i don't like to read) are in there. When we go in to look for books I have to use the computer to find the ones i am looking for.
- At are school library there alot of different book's for all the different people we have here.
- think my schools' library is alright. Like, most of the time I can find a few books that are worth checking out. And you can find better books that are better for me to read than just the books at like elementary schools. I can read just about anything. I read the Harry potter series so many times, now I just open anywhere in any of the books. Same with the percy Jackson series. I can also find playaways of books that I really like. Like catching fire, the giver, and many others. My schools library is really good.
- A place where you can chek out books and read. Activities in TAG are fun.
- My school library has a lot of interesting books, tables to sit, computers to help you find a book you want, and the chance to experience different worlds by different authors.
- I think my libary has a wide virety of book sealections.

- I like but sometimes books are checked out for 4-6 weeks which is really annoying if you want to check that book out
- I like my school's library. It has a wide variety of books, and seeing as I LOVE to read, that's a good thing. Another good thing is that the shelves are sort of overflowing, which means I will never run out of things to read.
- The school library feels kind of small, and doesn't seem to have a whole lot of books, but every now and then you find something you really want to read.
